for NetStudio - Agios Stefanos

Achievements
Pixel perfect Figma to html, with all green lighthouse scores. **Optimized performance by 95%** reducing image animations to mere KB by turning them into CSS animations.

2024 Website Admin
(Admin - Design - Data Entry)
for LEOS SA - Kryoneri

PROJECTS

Dockerized self-hosted Wordpress
A wordpress site for a Dentist, which I've used docker for seamless deployment across environments, whilst using NGiNX as a reverse proxy in a home server.

Dockerized self-hosted Laravel
A Laravel website used as my portfolio site, where I've used Laradock for seamless deployment across environments. Developed it into a dynamic single-page application (SPA).

Listings Web Scrapper
Uses simplehtmldom to scrape listings of CPUs, GPUs, Desktops and Laptops from insomnia.gr sorting them Price/Performance, daemonized every 15' (turned off).

Almalinux 8.0 Home Server
I've set up an Almalinux Machine, Dockerizing websites, Nginx reverse proxy, Scripts for DDNS, while using Cloudflare on the front for Security and protection.

FINAL THOUGHTS

As a passionate junior full-stack web developer, I am committed to continuous learning and improvement. My experience with Laravel, Tailwind, PHP, and JavaScript at Netstudio has equipped me with a strong foundation in web development. I value teamwork, creativity, and the pursuit of excellence in every project I undertake. I am eager to bring my skills to a dynamic team where I can contribute to innovative solutions and grow both personally and professionally.
